How to Use This to Make Money

Freelance Client Management

\$500-\$3,000/mo

Use the Client CRM to manage 3-8 freelance clients at once without dropping the ball. Track every project, invoice, and follow-up.

- Add a new client row for every lead you get
- Set status to "Active" when they pay
- Use the Notes field for meeting summaries
- Filter by "Follow Up" status every Monday

Digital Product Business

\$200-\$2,000/mo

Use the Income Tracker to monitor your Etsy, Gumroad, and PayPal earnings daily. Know exactly which products drive revenue.

- Log each sale manually or connect Notion API
- Track by source: Etsy / Gumroad / PayPal / Blog
- Review top earners every Sunday
- Double down on what sells

Content + Blog Income

\$300-\$5,000/mo

Use the Content Calendar to plan 30 days of SEO content at once. Track which posts rank and earn ad/affiliate revenue.

- Plan 20 blog posts per month in the calendar
- Link each post to a keyword and target page
- Mark "Published" and track performance monthly
- Connect to Google Search Console for click data
